# Presentation

Escuela de Arte de Murcia (Murcia School of Arts), has been training highly qualified professionals for more than 80 years. Our Institution's hallmark has been to update the academic offer to present-day demands taking into account tradition and culture, together with technical, technological, artistic and creative perfection.

Our specialised facilities, motivating environment and highly qualified teaching staff, always committed with the goal of training good professionals in the different fields, make this School the right place to start making dreams come true.

The academic range at this School spans from craftsmanship to specific technology, both applied to the different fields of study. Bearing in mind the ever-present creativity as an emblem for future artists and professionals.

The Erasmus+ mobility Program allows both students and staff to study and train in other European countries, with the formative, creative, cultural enrichment it implies.

After these two-year courses, students are qualified as Higher Technicians in Art and Design, level 5 within the European Qualification Framework, offering a wide range of prospects for their careers.

The Advanced Vocational Studies in Artistic Jewellery (Level 5 EQF) are aimed at providing students with a high quality artistic training and help them develop their creative skills. Students are granted professional qualification to create jewellery pieces with a personal language. These studies will help trainees to solve any artistic and technical problems that may arise during the elaboration process. Students will also be encouraged to follow trends and innovations regarding functional and aesthetic aspects.
